

Maggie's advice sheet

Online Learning

It is important when taking online courses to stay on top of **DEADLINES**

TIP 1

Before the class starts, write every due date for each assignment down on your calendar! Then you will never miss an assignment!!

TIP 2

Since most online classes do not give you the opportunity to meet your professors, I find it helpful to meet the professor at least once and ask any questions you may have!

TIP 3

Establish a good workplace!!!

I find it helpful to find a spot that is quiet and I can accomplish all the work I need to get done for each week of class!

Follow these three tips and you should not struggle!!
Hope this helps!!! ☺
