

# Hold on to that Syllabus

## What's a Syllabus?

The syllabus is the backbone of the class. It is a handout given by your professors when a new school year or semester has begun. This handout highlights the policies, the overview of the class, and the class calendar for when assignments are due.

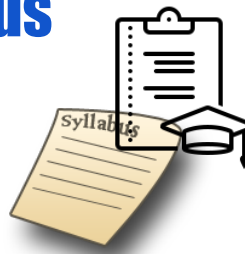

## The Syllabus is YOUR friend

If you're ever confused about what is going on in class, you can always refer to the syllabus. Here is how the syllabus can be helpful during the school year:

- Able to plan the semester ahead since most dates are on it
- Able to keep track of attendance by being aware with the classes attendance policy
- Has the teachers contact information like email or phone number. It can also include the teachers Office Hour Schedule if you ever need help with the material

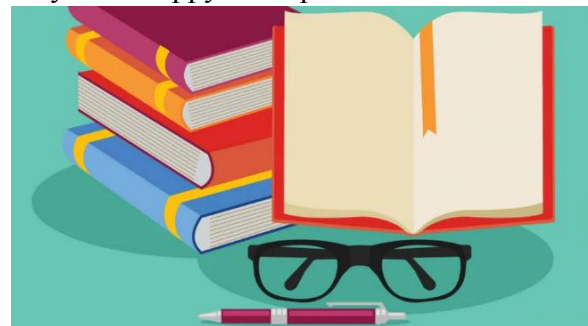

At the end of the day, you can be less stressed because you go to get a good understanding of how to do the work!

## What if I lost the Syllabus?

Don't fear, professors usually leave a digital copy on Blackboard. If not ask a classmate, they'll be happy to help!

## Don't forget this!

- Do a weekly review of the syllabus to keep on top of classes
- Ask questions! It is okay to ask questions if assignments on the syllabus are not clear
- Write down the dates on your calendar, whether it's on your desk or on your phone
- If reviewed in class highlight the important parts of the syllabus and take notes on it
