

# DR. D'S SUCCESS SHEET

This class is very interesting and teaches you a lot about magazines. This class will allow you to learn things about the magazine industry that you may have never known before. Make sure to pick a magazine that you enjoy at the start of the class because you will be working very closely to analyze it as the class progresses. Since this is an online course, it is important that you stay on top of your work and meet all deadlines. Here are just some tips that will help you succeed.

1

## DO THE ASSIGNED READING

Make sure that you are reading the chapter assigned for the week. This will be helpful to you when it comes time to write your posts. Your quotes will be stronger and help you receive full credit for your discussion post.

2

## LEAVE TIME TO DO YOUR POSTS

Make sure to leave yourself enough time to do your discussion posts. It is important that you are not trying to do the posts the night before it is due. Allowing yourself enough time will allow you to read over your posts and correct them before submitting them.

3

## MAKE A CHECK LIST

Making a check list will help you to stay on track with deadlines. Deadlines are important because Dr. D does not accept late work. The discussion posts are a lot of points so missing one can affect your grade seriously. Having a check list will help to keep you organized.

4

## READ YOUR CLASSMATES POSTS

After your post is submitted, make sure to read your classmates posts. This will allow you to see the concepts in other magazines and explained in other point of view. It will also allow you to feel connected to your classmates and realize things you may not have before.

5

## USE THE SYLLABUS

Make sure you download the syllabus and read it fully before the class begins. Something I have found helpful is to mark off the assignment as I complete it. Also make sure to understand the course objectives so you can learn as much as possible.
